RE: Right-to-Know Request Tracking Number: **2019-0520 (SW)**

Dear Requestor:

On July 19, 2019 the Department of Environmental Protection's (DEP) Open Records Officer received your request under the Pennsylvania Right-to-Know Law, 65 P.S. §§ 67.101-67.3104 (RTKL).

On August 23, 2019, your RTKL request was granted by DEP's Southwest office but payment was required prior to record production.

On September 10, 2019, your payment was received by DEP's Southwest Regional Office.

Your records are enclosed.

Sincerely,

A handwritten signature in black ink, appearing to read "Kevin Halloran". The signature is fluid and cursive, with a long horizontal stroke at the end.

Kevin Halloran
Assistant Regional Director

**PADEP Permit Year 2018 Annual Report on Operations
for JVS Environmental**

Dear Department Members:

Included is JVS Environmental's Annual Report on Operations for the Permit Year 2018. This report was prepared in accordance with Special Conditions 11, 12, 28 and 29 of the *WMGR081, e-Cycling Beneficial Use General Permit Information*.

All information included herein is appropriately referenced to the subject time period.

Our operations during the past year have been steady and we greatly look forward to expanding our market area and developing innovative solutions to better serve the electronics and special waste industry.

If any portion of this submission is inadequate or needs further clarification please contact us.

Respectfully Submitted for *JVS Environmental*,

Vincent Gusbar, P.E.
Owner

1.0 INTRODUCTION

JVS Environmental (JVS) was authorized as a permitted electronics recycling company by the Pennsylvania Department of Environmental Protection (PADEP) on April 16, 2007 and commenced operations following the date of issuance of WMGR081 No. D010. The following sections of this report provide details on operations conducted at the JVS facility during the above referenced time period and was prepared in accordance with the Special Conditions specified under WMGR081 Residual Waste Beneficial Use Permit. The following items will be discussed in detail in the subsequent sections of this report:

- general operations and waste acquisition procedures;
- safety and environmental pollution incidents;
- documentation procedures;
- liability insurance and bonding
- the weight or volume of each type of waste processed;
- the respective generators of the waste;
- the weight or volume of each type of material reclaimed, and
- the final disposition of all waste, including the dates of shipment, quantities, and name and address of the party to which the processed waste was shipped.

2.0 GENERAL OPERATIONS AND WASTE ACQUISITION

JVS accepted electronic waste items from a range of clients including commercial businesses, schools and homeowners. The means by which JVS received waste are:

1) Community Electronic Collection Events

Electronic waste collection events were conducted in Allegheny, Washington, Greene, McKean, Cambria, Fayette and Somerset Counties throughout the course of the above referenced permit year. These community collections were conducted in cooperation with the respective county and township governments. JVS conducts 40 to 50 one-day events per year.

2) Electronic Items Drop-off Services

JVS provided electronic item drop-off services at pre-scheduled times to clients on a daily basis. It was required that a JVS representative be present at the drop-off time to properly handle and document the waste materials accepted. As part of the PA Act 108 Covered Device Recycling Act JVS currently manages consumer drop off locations in 49 Pennsylvania counties.

3) Electronic Items Pick-up Services

JVS provided pick-up services to clients at pre-scheduled times. All waste materials transferred were properly documented and inventoried as outlined in the JVS permit application.

"Your efforts today ensure a cleaner environment for tomorrow"

3.0 SAFETY AND ENVIRONMENTAL POLLUTION INCIDENTS

No reportable safety or environmental incidents occurred during the annual reporting period.

No processing procedures have been altered from those originally outlined in the JVS permit application.

4.0 DOCUMENTATION OF OPERATIONS

As outlined in the special conditions of WMGR081 JVS has retained on file the following forms which are available for PADEP departmental review upon request: a) daily inspection forms, b) inbound waste inventories and c) outbound bills of lading.

5.0 LIABILITY INSURANCE AND BONDING

JVS maintains Commercial General Liability Insurance through in the amount of \$2 million per the following aggregate amounts:

- \$2 million for each occurrence;
- \$100,000 damage to rented premises for each occurrence;
- \$5,000 medical expenses for any one person, and
- \$2 million personal and ADV injury.

JVS maintains a collateral bond in the amount of \$32,552 as per required by the PADEP.

JVS also maintains a Pollution Liability Insurance policy in accordance with the R2 Responsible Recycling Standard for an aggregate amount of \$1 million for each occurrence.

6.0 SUMMARY OF WASTE ACCEPTED

JVS has processed **18,276,618 lbs** electronic waste during the 2018 year. A detailed spreadsheet including quantities of all waste materials accepted, the date of acceptance, the respective generators, JVS invoice references, subsequent final destinations of raw materials and dates of transfer is included for reference. Please note that any residual waste quantities that remained in inventory as of January 1, 2019, were processed or are currently being processed and no materials will remain in inventory for greater than one-year.

7.0 END SOURCES FOR WASTE/RAW MATERIALS

"Your efforts today ensure a cleaner environment for tomorrow"

In general, all raw materials extracted from waste that entered the JVS facility consisted of ferrous and non-ferrous metals, plastics, Cathode Ray Tubes (CRTs), populated circuit board (PCB) scrap and miscellaneous electronic breakage. Table 1 on pages 3-4 provides a listing of significant end sources for raw materials separated by material type.

Table 1: Vendor and End-Source Summary

<i>Vendor</i>	<i>Materials</i>							
	Plastics	Non-Ferrous Metals	Ferrous Metals	Power Supplies/Hard Drives	CRTs ⁽¹⁾	Circuit Board Scrap	Misc. Electronic Breakage	Appliances/White Goods

Tech Recyclers, LLC 930 Magnolia Ave. Elizabeth, NJ 07201 (908) 686-8901 Universal Waste Solutions 3000 Orthodox Street Philadelphia, PA 19107	X	X		X		X	X	
--	---	---	--	---	--	---	---	--

¹ all CRTs were unbroken prior to and during transfer

² materials purchased for reuse and computer repair purposes only

As part of JVS' R2 Responsible Recycling Certification we have conducted rigorous downstream vendor audits to ensure that the materials shipped are being handled in accordance with all local, state and federal regulations regarding electronic waste processing and final disposition. All downstream vendors retained by JVS which handle downstream "focus materials" as defined in the R2:2013 standard are either R2 or e-Steward Certified and have EHS management systems in place.

8.0 CONCLUSIONS

JVS' calendar year 2018 operations displayed the growing need for electronics and special waste recycling within the Commonwealth of Pennsylvania and surrounding geographic region.

Changing trends in the field of technology has promoted a more "green" approach which fosters recycling, reuse and sustainability rather than virgin material extraction. JVS wishes to continue providing efficient and safe environmental solutions to its clients while remaining compliant to the PADEP guidelines.

"Your efforts today ensure a cleaner environment for tomorrow"
